

Client / Operator : Tenix Defence (currently BAE Systems Australia)
 Project name : HMNZS Canterbury
 Construction yard : IHC Merwede BV
 Country : The Netherlands
 Period : 2005 - 2006
 Category : Construction and commissioning supervision

PROJECT DESCRIPTION

Tenix requested assistance from The Offshore Partners, on their new building project for the Royal New Zealand Navy.

The project took place at the IHC Merwede shipyard location in Hardinxveld Giessendam, The Netherlands. The Multi Role Vessel HMNZS CANTERBURY is capable of undertaking a number of roles including amphibious, helicopter, surface patrol, troops and equipment transport operations. The Offshore Partners provided support to the project management, on various disciplines, as part of the site team at the shipyard.
