 Engineering and consultancy

PROJECT DESCRIPTION

Global Industries Offshore requested The Offshore Partners to review and comment on the concept design of the heavy lift pipelay vessel Global 3000. This double joint S-lay pipe installation vessel, is designed with a dynamic positioning system class 3, to install subsea pipelines and structures under the most stringent environmental conditions.

TECHNICAL DATA

Principal Particulars

Length over all	: 207.70	m
Breadth over all	: 37.80	m
Depth moulded	: 19.60	m
Scantling draft	: 7.00	m
Total installed power	: 39,150	kW
DP system	: DP3	-
Speed	: 15	kts
Max. pipe diameter	: OD 60	inch
Tension capacity	: 3 x 350	t
Main crane	: 3,000	st
Accommodation	: 330	pers.

OUR SERVICES

The Offshore Partners provided the following services:

- Basic design review as independent third party
- Review of general arrangement
- Review of operational workability and logistics
- Providing single joint concept
